The Show

Based on the world famous novella by Antoine de Saint-Exupery, Protein's award winning family show welcomes you to the incredible story of The Little Prince, retold in this live show by a pilot stranded in the desert.

The Little Prince leaves behind his home on asteroid B-612 and journeys through the universe encountering all sorts of unenlightened grown-ups along the way. Once on planet Earth, the Little Prince is welcomed by a mysterious snake and a fox who teaches him how to see the important things in life before encountering the lone pilot. The Little Prince tells the pilot about his home and his journey and together they discover the beauty of friendship and the complexity of love. However, the Little Prince has left behind a flower growing on his planet, a rose which is his treasure and his burden, and before long he must return to it.

"All grown-ups were once children... but only few of them remember it."
